A decorative border composed of small, stylized tree icons arranged in a circular pattern around the central text. There are approximately 20 trees in total, spaced evenly to form a ring.

KIND'S VITALITY DAHLIAS

Shady Lawn Nurs.

TO OUR CUSTOMERS:

I thank you for your patronage. It was an earnest pleasure to serve you. I am thoroughly convinced that the Golden Rule is thoroughly practical in business and religion. It works both ways—For others and for me.

I firmly believe that selfish interest defeats self interest—that my permanent profits and lasting satisfaction in success will come only through capable and dependable service.

It has not been our policy to send our 1st broadcast, but to cater to those who appreciate Quality and Service.

Personal attention to all orders, large or small.

Prompt shipments.

Immediate reply to all correspondence.

Advice cheerfully given.

Hammonton, "The Hub of South Jersey", is located half way between Philadelphia and Atlantic City on both the Pennsylvania Railroad and the Reading Railroad. There are many express trains direct to both points as well as direct service to New York. We extend to you a cordial welcome to a visit any time of the year. Time tables will be sent on request and it will be a pleasure to meet you at the station. Our Nursery is just two and a half miles from the depot.

TO MOTORISTS

The extensive "White Horse Pike", a concrete road in direct line from Philadelphia to Atlantic City will bring you within one half mile of our place. Ask any traffic officer or resident when reaching Hammonton and they will gladly direct you to our Nursery.

In the event that we are sold out of certain varieties, we will substitute to our best judgment, **unless ordered not to do so.**

Why Kind's Dahlias Give Results

They are not grown for exhibition purposes. The plants are allowed to grow nature's way. That is from ten to twenty flower stalks to a plant. For exhibition purposes one or two flowers are permitted to bloom. The plant is then highly fed. The vitality that the bulbs contain is pushed up into the stalk and flower. Beautiful flowers are obtained. Something must give and, consequently the tuber loses its vitality. Kind's Dahlias are fed with evenly balanced fertilizer. You get all that is in them. Strong vigorous stock. When you buy Kind's Dahlias you get 100% vitality.

Dahlia Cultural Directions:

Clumps should be cut to single eye divisions. If sprouted cut the sprout within a quarter of an inch from the bulb.

They should be planted in rows of five feet apart and two to three feet in the rows. The best method is to lay the bulb flat (not stand) and cover with three inches of soil. If a row six inches deep is struck and bulbs planted three inches the row can be filled in from time to time. When the plant has attained a height of about eight inches pinch out the top. This will enable the plant to sprout and give proper flowers. A second pinching may be made in the early August. Not later. Disbudding of the side shoots is very essential. This will give you the fine exhibition flowers. We suggest five to six flowers to the plant. Flowers cut in the morning hold up best. Place in a cool cellar away from draft. Slightly syringe the flowers, this will stiffen them.

In rich soil fertilize slightly. In poor soils over fertilization can hardly be accomplished. Bone meal, manure, or any good potato fertilizer is essential.

STATE OF NEW JERSEY

ALVA AGEE, Secretary

Bureau of Statistics and Inspection

HARRY B. WEISS, Chief

No. 34

Trenton, N. J., Sept. 1, 1927.

This is to certify that we have this 8th day of July, 1927, in accordance with the provisions of Chapter 268, Laws of 1916 State of New Jersey, inspected or caused to be inspected by a duly appointed Inspector the general nursery stock growing in the Shady Lawn Nurseries of Hugo Kind, proprietor, at Hammonton, in Atlantic County, New Jersey, and have found the same apparently free from San Jose and other dangerously destructive insect pests.

This certificate expires June 1st, 1928, and covers stock actually in the nurseries when examined.

WM. H. MARTIN,
State Plant Pathologist

THOMAS J. HEADLEE,
State Entomologist.

RALPH B. LOTT, Chief Inspector.

Note—U. S. Federal Inspection

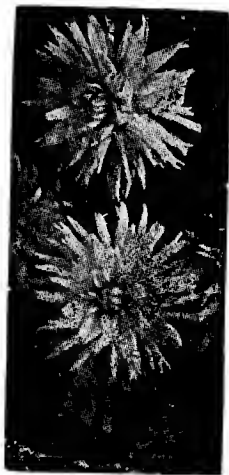

It is our custom to have Federal Inspectors, during shipping season, look over and carefully inspect our stock daily. All shipments undergo a rigid test. All stock so passed is labeled with the U. S. Dept. of Quarantine certificate.

SPECIAL RASPBERRY CERTIFICATE NO. 8

Trenton, N. J., Sept. 21, 1927.

This is to certify that the raspberry plants, roots or tips offered for sale by Hugo Kind of Hammonton, in Atlantic County, New Jersey, have been inspected in the field and found practically free from mosaic, leaf curl, rosette and similar diseases.

EDGAR G. REX, Chief Inspector.

DAHLIAS

All stock listed are strong divisions

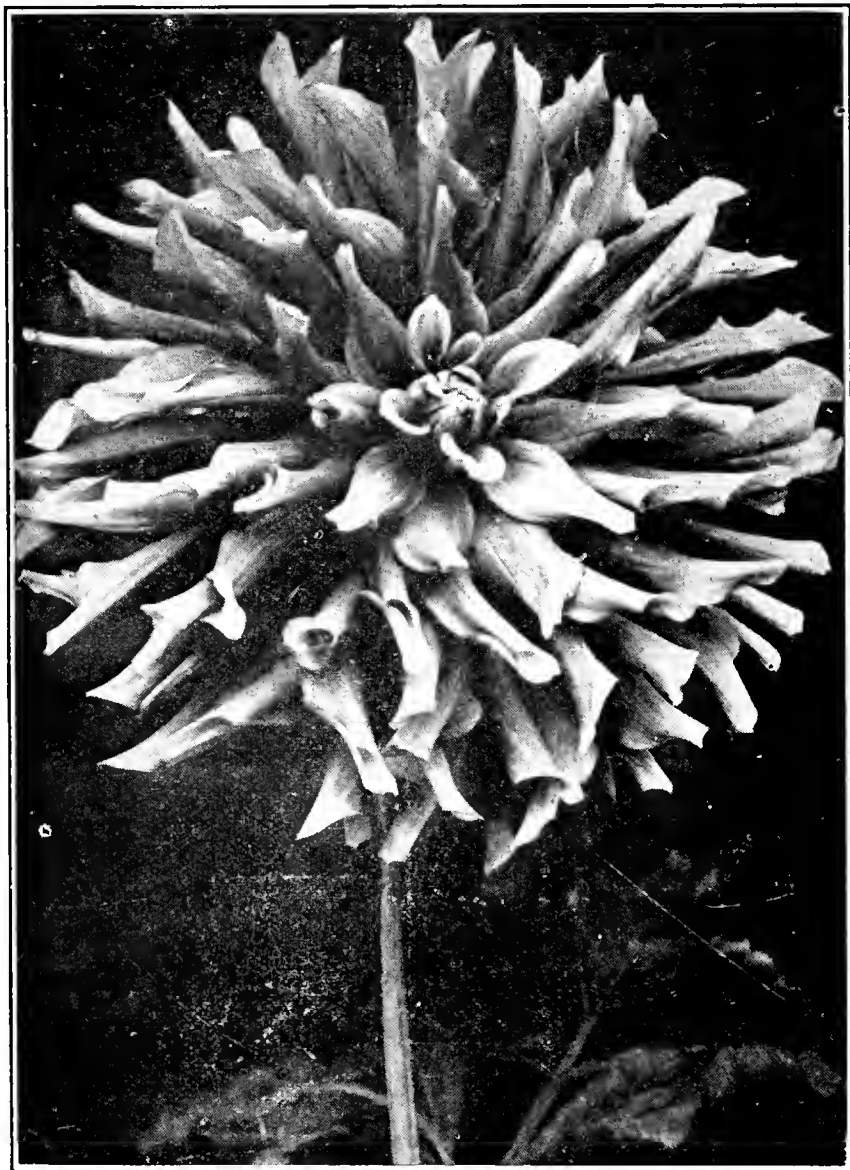

The kind of roots we send out—They are grown from divisions. We do not send the small knotted pot grown roots so often used. Our roots are of good size, dependable and well grown. Our diggings are made immediately after frost and it is our aim that all stock be harvested before the stem is frozen. This assures good keeping qualities.

3 bulbs at ten rate 25 at 100 rate. Those listed singly at prices quoted. If you wish less than three of those listed at ten rates add 10 per cent.

Cactus and Hybrid Cactus

	each	10	100
Ambassador. Yellow buff, shaded apricot flower extremely large	1.25	10.00	
Ambassador, R. C. 35c			
Attraction. Imagine a beautiful glistening lavender flower six to eight inches in diameter, of cactus type, on a stem of anywhere from three to four feet. The flowers stand erect, never looking downward, full and deep to the center, petals stiff and yet dainty, foliage a beautiful bright green. All stems run out into perfect blooms. No superfluous wood. This is what you have in "Attraction." As to keeping qualities it is unsurpassed. And mind we cut from fifteen to twenty perfect flowers to the plant. From our stock of ten thousand plants—Not one is diseased.			
So here is your guarantee	2.00	16.00	
Betty Austin (Peacock). The absolutely perfect Dahlia. A Hybrid that is in a class by itself. One more year has only demonstrated that all over the country it is one of the earliest to bloom, a free and continuous bloomer. The flowers are full to the centre up to frost. Color, yellow at base of petal, blending to rosy carmine and rose, yellow at tips, reflex rose. Is the ideal Hybrid Cactus, while the long slim stem holds the flower up to look you frankly in the face. The flowers are medium to large, about seven inches in diameter. The plant is a quick grower, of branching habit, about three to four feet high	2.00	16.00	

Bianca. Lavender. Not very good as a cut flower	3.00	18.00
Break O'Day (Maytrot) H. C. A new giant flowered Dahlia that should be in every collection. Its immense size is relieved by a beautiful irregular formation and its soft color. A delicate clear sulphur white at the tips. The petals are of great substance, illuminated by a satiny sheen, giving the flowers a waxy appearance. A strong vigorous grower and free bloomer with long erect stems. An acquisition	3.00	28.00
Candeur. White, long stems, fine for cut-cutting	1.00	8.00

Betty Austin

True Cactus Type

Why Kind's Dahlias are LEADERS.
Because—They are true to name.
They are free from disease.
They are prolific bloomers.

We do not send out small poorly shaped bulbs. Nor do we send the knotted twisted up tubers grown from pots. Our stock is all tuber grown. This assures the buyer stock that will sprout.

Skagerrak. This beautiful clear, clean lemon-yellow has flowers which under ordinary field culture, without disbudding measure 7 in. in diameter. In form it is all that can be wished for, the long petals making a deep gracefully shaped flower, always full to the center			
		5.00	45.00
Snowdrift. White, large and fine		3.00	25.00
Sophy Morry. Cactus of most wonderful coloring. White heavily overlaid lavender. A most desirable sort for cutting. A color that is rarely found in cut flower sorts. Do not fail to have at least a row of this variety for your trade		3.00	28.00
Springfield. Red overlaid salmon		2.00	18.00
Success. Yellow		2.00	18.00
Sunset Glow. It is larger than Red Cross and better color; it is always perfect in form and will produce several times as many flowers. The color is yellow at base of petal, outer part overlaid flame scarlet, tipped yellow. The plant is one of the very first to bloom, of medium height, 3 to 4 feet and branching habit. It is an extremely profuse bloomer and every flower is perfect. As it is larger and better colored than Red Cross, it is not only the best of this type for garden and commercial cut flowers, but a splendid exhibition bloom		1.50	14.00
Standard Bearer. Old but still good. Free flowering red cactus of good form		2.00	
Sunshine (Maytrott). Red with yellow shadings, fine cut flower		1.00

Tom Lundy. H. C. Velvet red. A California favorite		2.50	
Thomas Oberlin. Intense scarlet		2.00	16.00
Tom Pain. A pure white. Robust and free. A large flower in spite of reverses in weather, and not fail in size. (In honor of the great Tom Pain. The idol of three countries and actual author of our Declaration of Independence.) This variety can be furnished in green plants only	5.00		

	each	10	100
Theodore Roosevelt (H. C.). A new and very attractive dahlia that we listed for the first time last season. The flowers which are borne on long stiff stems are a beautiful shade of yellow. Each petal is finely curved and reflects to the stem as the flowers fully expand. Different than most other dahlias in this respect. It is of a hybrid cactus variety. 8 to 9 in. across. Keeps a long while after cutting. A most unusual yellow and I can fully recommend this variety above any and all our yellow varieties we have so far listed or tried. A sure bloomer in spite of severe dry weather 1.00			
Valiant. Crimson		4.00	
Wacht am Rhein. Hydrangea pink, tinting to a white at center, good, straight stems and fine for cutting		2.00	
Washington City. Snow white, of beautiful form and borne on long stems. The flowers are of enormous size		3.00	26.00
Wodan. Old gold at center, shading to a salmon rose. This variety is in a class by itself, in-so-far as it is an extremely vigorous, almost rampant grower, producing the big flowers profusely on very long stems. One of the best		1.50	10.00
Yellow King. One of the largest of all cactus dahlias, being of gigantic size and of the finest new cactus. Color light yellow, tinting to cream at the tips, giving it a most pleasing affect. The immense flowers are borne on long, stiff but slender stems		1.00	9.00

Learn to Say "No"

If a stock salesman offers you a wonderful sure "gamble" and you feel you should not invest learn to say "No".

If your business requires your constant attention and your Club or your town committee wants you as a member learn to say "No".

If your friends want you to go on a fishing party or such and you cannot spare the time learn to say "No".

Then you will be a successful man. And isn't it strange it requires forty years before we have really learned something?

Arbutus \$1.00 R. C.			
Adelphia (Redfern). A variation of red and gold. The former predominating. Flower large and full	5.00		
Alberta Manda. Beautiful shades of lemon, white and pink		3.00	
Amon Ra (Seal). An immense decorative of coppery bronze; the stems are long and stiff and the flowers keep splendidly when cut	2.00		
Aurora “B”. Dark purple small white collarette like, petals intermingled. Very pretty and new		2.00	18.00
Aurore. One of the most attractive dahlias in our collection. Apricot with lovely shadings of peach and red pink. Just a marvelous color very hard to describe. Visitors always ask “what is that pretty dahlia?” Grows freely and stems very long. Need little or no disbudding. A close rival to Patrick Omara and perhaps a little better. A dec. early. Later a peony		2.00	18.00
Ayesha. Light yellow, long stems		2.00	18.00
Azalea. Large yellow, shaded salmon, very good. Large		3.00	26.00

Barbara Redfern. We give Mr. Redferns description. “One of California’s best introductions, a new dahlia, which, as the years pass will rank as a standard. New dahlias are arriving every season, many of which are heralded as the greatest dahlias of the world. Their lives are short in large numbers of cases, but Barbara Redfern is a decorative which will have a long life. After you have once grown it, you will always grow it. The people who want size above everything else, will delight in it. The flower lovers who crave beautiful coloring, will rejoice in it. The big

majority of dahlia lovers who insist on a stiff stem, and a robust plant which will bloom early and profusely, will welcome this addition to their collection. Color is a wondrous combination of old rose and old gold. The outside of petals is dull gold, the reverse is delicate old rose. Petals are very long and of medium width. Owing to their formation both colors show at once. Flower is of mammoth size and great depth, and borne on a heavy, stiff stem, which never bends, but carries the big flower upright at all seasons. The bush is a clean, healthy grower, blossoms early and blooms continuously. Flowers last four to five days after being picked 7.00

Mina Burgle. This splendid variety was raised by Burgle, gardener at the Mare Island Navy Yard. Color rich cardinal red. It is of fine form. The plant is a strong, vigorous grower, producing freely on long, stiff stems. 5 ft. We offer a select strain of roots	1.00	8.00	
Mme. Butterfly. Violet rose, shading darker at base, petals recurving, showing magneta reflex, large and fine	2.00	18.00	
Mont Blanc. A free flowering white	1.00	7.00	
Mr. C. H. Drusselhuis. For many years the variety Delice has been a favorite cut flower, and while beautiful it was not a free-flowering. In this new variety we have a similar color, a soft rose-pink with white suffusion toward the tips, and what is most important, one of the most prolific bloomers; of medium size, right for cutting and are splendidly supported on very long stems. We predict great popularity for this variety as it is undoubtedly the best pink for cutting yet produced	3.00	28.00	
Miss Mazie Leber (Dec.). Of all the beautiful two colored Dahlias we consider this the winner. Color purplish violet at base heavily tipped white. A most wonderful contrast. A living gem in every way. Long stem, fine foliage, flower lasts long after cut. An "All American" Dahlia	5.00

Mrs. Hugo Kind. A large flower that is held on long, stiff stems. Of a velvety red and of the most attractive shade. Different than most reds. Petals are irregular and of the most pleasing form. We had this on exhibition at the Philadelphia Florist Club. A vase of twenty four on stems four foot long. They were not disbudded and showed the few side buds apparent. The leaves are a dark velvety green. A wonderful keeper. It is the first red to attract attention with visitors			
		3.50	
Mrs. I. de Ver Warner (Marean). Orchid pink, very large, extra stem, strong grower, free bloomer, very satisfactory		2.50	20.00
Mrs. J. Gardner Cassatt. Bright cerise pink, large flowers on long, stiff stems		1.00	8.00
Mr. J. Harrison Dick (Decorative). Here is the dahlia supreme, for cutting or the garden. One of the most valuable new varieties of recent production. Color citron yellow at center, outer petals suffused and overlaid salmon pink, a lovely and effective combination, especially under artificial light. The plant is a wonderful grower of medium height and branching habit producing the perfect flowers in greatest profusion on long, stiff stems		1.50	12.00
Mrs. John T. Sheepers (D). Canary yellow suffused pink on the outer petals. The huge blossoms are produced with great freedom	1.00

Nialide. In the early part of the season it is a decorative. Later a beautiful pæony type. We are often asked why such a beautiful flower is not more popular. Probably due to the fact that it is has not been tried out; and owing to the limited stock. It is a velvety red of a darker shade with slight suggestions of yellow here and there on various petals. Making it very attractive. The flowers are borne on exceptionally long stems and require very little disbudding. A wonderful keeper and always admired. Flower large			
		1.25	12.00
Nobilis (Decorative). Startling combination of scarlet and white, with white predominating. Large, bold blossom, on robust stem. A beauty which differs slightly from Earle Williams		3.50	30.00

Queen Mary. A grand decorative that has proven its worth as the best deep pink for all purposes. The size is large, full high center, even up to November, when killed by frost. Color clear silvery cer- ise pink. The plant is a strong healthy, vigorous, upright branching grower, producing the flowers freely on long stems		1.00	8.00
Rainbow. A most wonderful coloring, old gold and Oriental red. Soft flower	2.00		
Robert Treat. Color American Beauty Rose		9.00	75.00
Rodman Wanamaker (Decorative). The world's best Dahlia and if not the larg- est in the world, is at least the largest stiff stem profuse blooming dahlia; blooms are ten to eleven inches in diam- eter without disbudding. Color is en- tirely distinct; the buds are a light lem- on yellow. As each petal expands the color changes chamelon like, to golden salmon with bronze suffusion, reflex, a beautiful spiral pink. A wonderful vig- orous grower, with luxuriant bright, glossy green foliage. The flowers are most beautiful formed with long, irreg- ular twisted and whorled petals, and produced freely on very long stiff stmes, entirely distinct	1.50	10.00	80.00
Rockwood. One of Bessie Boston's favor- ite introductions, which she describes as follows: "An entirely new shade of pink which is more like the popular Russell rose than any other flower. It is a pure bright cerise rose." Large flowers with excellent stems. Low bushes producing masses of flowers all season. A continuous prize winner	1.00		
Rosa Nell. Deep rose very large and fine		2.00	18.00
Shannon. Buff, large and fine, tall grower	2.00

		6.00	
Shudow's Lavender. Lavender	2.00		
Somerset. Is a large decorative on excellent stems. Keeping qualities of the best if cut when the blooms have fully matured. Blooms freely. In fashioning this flower the genii of nature have blended the color tones in a manner that makes description difficult. But while the color somewhat varies according to weather conditions and the age of the flower, the general effect is that of salmon and old rose. As the blooms mature, the salmon changes into old rose, and like an after-thought, sometimes, there is a touch of lavender there. There is just a slight twist to the petals and irregularity in the arrayal of same, which gives the flower an air of grace and refinement that is lacking in most large dahlias. Somerset is a healthy and vigorous grower, that you will not need to spray and dust or worry lest some insect give it a cross look. Even Diabrotica (green, black spotted lady bug) will not touch it as long as there is something else to eat in the garden. Somerset has proved its value as an exhibition flower, winning at the Annual Dahlia Show of the Dahlia Society of Southern California in 1923, first prize for the best two year old seedling and first prize for the best flower in the show. Scored 90 points

Whopper. A giant decorative with extremely large, well-built deep flowers of a most pleasing shade of yellow-buff, suffused with orange. In form it is all that can be desired		2.50	22.00
Wizard of Oz. A great dahlia from all points of view, size, formation, color, habit of growth and freedom of bloom. Really a wonderful all around dahlia, be it for the garden, exhibition or cut flower. Begins to flower early and holds its blooms perfect to the end of the season; these are produced on long, stiff stems held so as to show them off to the very best advantage. In color it is a rare shade of amber-pink with soft salmon shading or suffusion. Always attracts great attention	1.00

Zeus (Decorative Pæony). This bloom was 10 $\frac{1}{8}$ inches in diameter and 5 inches deep. It has not only size and a cane stiff stem, but beautiful form. The color is a wonderfully rich glowing red, each petal distinctly tipped yellow. A giant without a trace of heaviness. So artistically built and richly colored that it attracts, it holds, it fascinates. The plant is medium dwarf, 3 to 4 ft. high, as we grow it in field; strong, sturdy, healthy and vigorous. A free and continuous bloomer	2.00

Gold Medal. "Kind's Gold Medal." Of all the show Dahlias we have; here is a Dahlia all by itself. The reader may recall the older variety of Gold Medal. A yellow base with markings of bronze. Ten years back we found a sport from this particular sort which proved to retain its character. The color is of a most pleasing coppery bronze. Many of these flowers are shipped to the New York and Philadelphia markets. A color always wanted by the decorator. Consult your wholesaler as to his opinion on this particular Dahlia. Through a misunderstanding this Dahlia was given other names as "Gold Medal De Luxe", etc. There are the three strong points why you should have this Dahlia in your collection:—A most desirable color, Long sturdy stems, Always in demand		2.00	18.00
Kissimmee. The flowers are borne facing on long stiff stems well above the foliage. Color a wonderful blending yellow, gold and ochre, reflex pale amaranth pink. As the petals are cuppled or partially quilled, the color effect is most effective		3.00	25.00

DAHLIAS FOR THE SOUTH

We recommend the following Dahlias for the warmer states as Georgia, Florida, Tennessee, Alabama, etc.

As the southern climate is too warm for the more delicate sorts as cactus and hybrid decorative varieties we suggest the following good show and hybrid show Dahlias.

A. D. Livoni. Shell pink.

Dreer's White. White.

Dreer's Yellow. A mammoth yellow. Stiff long stems. A beauty.

Gold Medal (Kind's Gold Medal). A wonderful bronze.

Kiss'mmee. A fine bronze and other colors blending.

Vivian. Old rose and white.

White Swan. White.

For prices consult Show or Ball Dahlias

We will furnish 25 each of the above six sorts for \$12.50

A standard may be built in one year. Though it is another thing to maintain it. Kind's Dahlias have maintained their standard for twenty years.

WHY THEY WERE SUCCESSFUL

Because they were cheerful when it was difficult to be cheerful, and patient when it was difficult to be patient; and they pushed on when they wanted to stand still, and kept silent when they wanted to talk, and be agreeable when they wanted to be disagreeable. That was all.

The prosperity of our customers is very much our concern. If there is no margin of profit in growing flowers or bulbs or fruit, we suffer, as well as the grower. It is therefore to our interest that we furnish you the best possible stock at the lowest possible cost.

A few of unsolicited testimonials upon our Rooted Cuttings

Benton Harbor, Mich.
Sept. 9, 1927.

Mr. Hugo Kind, Hammonton, N. J.

Dear Mr. Kind:—

Last spring I received a quantity of Jersey's Beauty cuttings from you. The roots of one plant "damped off" in shipment, and I succeeded getting the rest to live. They have made very satisfactory growth in the field in spite of the unusually dry weather, and we had some very good bloom from them.

I am well satisfied with the plants received from you and would like you to make me a list of the real choice varieties of which you will have cuttings for sale next spring.

Very truly yours,
C. D. C. Atlanta, Ga.
April 3rd, 1927.

Mr. Hugo Kind, Hammonton, N. J.

Dear Sir:—

The five hundred rooted cuttings of Jersey Beauty arrived in fine shape. Kindly book me for 500 more and send C. O. D. when ready.

Very truly,
Mrs. M. L. G.

Oct. 24th, 1927.

Mr. Hugo Kind,

Dear Sir:—

Of the Jersey Beauty plants purchased of you wish to state they grew into nice bushy plants with lots of bloom. It was a good purchase. Thanking you, remain,

Very truly,
B. L. Helena, Ark.

Hugo Kind,

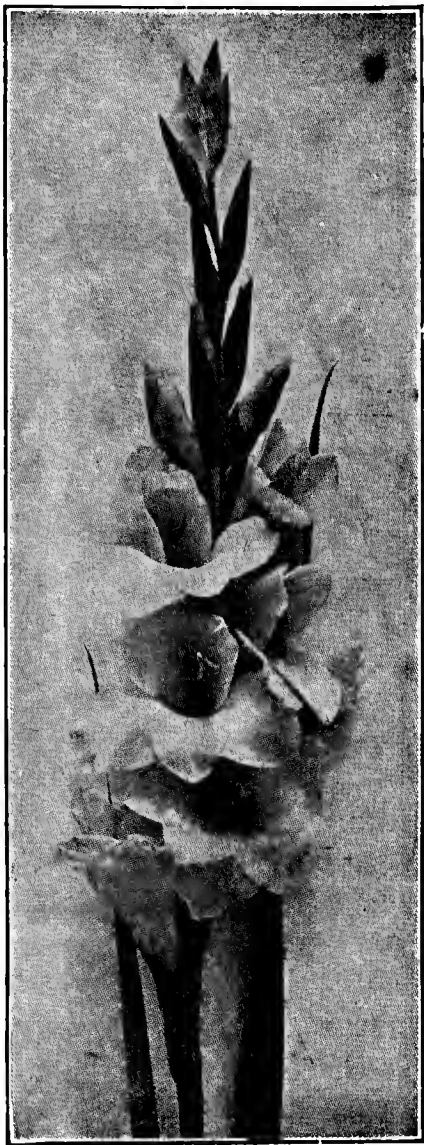

Shady Lawn Nurseries, Hammonton, N. J.

Dear Sirs:—

On the 8th day of March last spring we sent you an order for Gladiolus and Dahlias. Among them we had one hundred Jersey Beauty cuttings. (All this stock proved well and true to name. Kindly let us know whether you will again offer rooted cuttings.

Very truly,
Geo. B. Parson, Arkansas. 10-24-27.

Evelyn Kirtland. Flowers a beautiful shade of rosy pink fading to shell pink near center	2.50	20.00

Gladiolus (Continued)

Fair Columbia. Of all lavender gladiolus, we consider this variety the leader—for out-door culture as well as for forcing. The flowers are borne on long robust stems in great profusion. Flowers are large and lightly ruffled. The color is ideal for florist use. A wonderful luminous lavender of pleasing color. Do not fail to force a thousand or two of this new variety	6.00	50.00
Gretchen Zang. Vinceans pink, shading lighter strong spike. Good cut flower variety	2.50	
Halley. Light geranium pink. Strong spike	2.00	
Helen Franklin. White, finely ruffled	2.00	18.00
Jack London. Tall spike. Flowers flame pink, lightly striped with a darker red	5.00	
Le Marechal Foch. Pale pink. Good spike. Large flowers	2.00	18.00
Lily Lehman. Ivory white, lily shaped flower	2.00	18.00
Muriel. Amateurs and commercial growers, who visited our nursery were attracted by this new exquisite gladioli. Flowers which are of beautiful helitrope, bluish-pink color are pleasingly arranged on tall, erect, sturdy stems. A wonderful keeping quality as a cut flower for which it is popular	3.50	32.00
Maidens Blush. (Prim). Delicate salmon pink, slightly flushed light rose, tall growing, very early	3.00	20.00
Mary Fennel. One of the patricians of the garden, beautiful light lavender flowers on tall slender spike; lower petals, primrose yellow with penciling of lavender; perfectly and distinct, especially recommended	2.00	18.00
Mrs. Francis King. A beautiful "Bernard shade" of flame pink, flowers on a four foot spike—a magnificent variety	2.00	18.00
Mrs. H. E. Bothin. Pink with bright blotch. Late flowering. One of the leaders. 1¼ only	4.00	35.00
Odin. Pink. Early. Good forcer. Fine cut flower	3.50	28.00
Mrs. Frank Pendleton. A beautiful rose pink on a pure white background with deep rich velvety blood red blotches on lower petals	3.00	28.00

Gladiolus (Continued)		
	100	1000
Premulinus Hybrids. A new race of remarkable dainty and beautiful gladioli. Perhaps orange and gold colors predominate, but they combine every shade in the rainbow. Usually the flowers are hooded. Somewhat smaller than the ordinary Gladioli and the stems are gracefully curved. Very early	1.50	14.00
Prince of Wales. Strawberry pink, shading to a very pale pink throat, faint scarlet blotches on lower petals. Strong spikes. Flowers large and well arranged. In a class by itself. Very early	3.00	
Rose Pearl (New). A beautiful pink sport of Halley, superior to Wilbank	4.00	
Scarlano. A warm orange red, large ruffled. A beautiful shade of red and one of the best in this color	4.00	
Sentinel. A tall and strong rose-pink flaked a darker on the edge and blending to a white throat. Very late	3.50	35.00
Virginia. 1¼ only. The leading early red Gladiolus of today. Ruffled	4.00	35.00
War. Deep red, large flower	5.00	40.00

This is what sometimes happens when you allow your costumer's account to run too long:

"Say Bill, how about that ten dollars I loaned you last week?"
Bill—"Will pay you next week John."
John (next week)—"How about that ten dollars you promised me you would pay this week?"
Bill—"Sorry. Don't have it just now. Next Saturday sure."
John (on next Saturday)—"You promised me the ten. How about it?"
Bill—"What ten?"

If you are not thoroughly acquainted with Dahlias best suited for your purpose write us and we shall be glad to help you to the best of our knowledge.

CHRYSANTHEMUMS

Five extremely hardy varieties. Sorts that hold their foliage despite severe weather. Selected from fifty so called "Hardy Chrysanthemums." All these varieties are well adapted as to cut flowers.

Bronze Beauty:—Bronze colored. A small button variety. Very distinct bronze colored. Bright and shiny. A growing color and shows up well under electric light. Leaves bright and tiny. Flower about one inch. Stems two foot. Late.

Pink Dandy:—Silvery pink. Aster type. Flowers about two inches across or size of a silver dollar. When fully open flowers show a pretty yellow center. Foliage robust and large. Does best out doors but not well adapted for indoor forcing. Free bloomer. Midseason.

Victor:—Red. Button variety. A rich bronzy red. A most odd variety and always admired. Bunches beautifully as the flowers appear evenly on long slender stems. Medium height and neat sort for bedding. Flowers about size of a five cent piece.

White Cloud:—White. Aster type. Long stems. Free Robust. Price per ten **\$1.00**— per 100 **\$10.00**.

Ten each of above collection forty in all, for \$5.00.

Field clumps while they last.

Mr. Local Landscape Gardener, Florist or Planter:

It has been our custom to carry in stock a complete line of all ornamentals, Rhododendrons, Large Privet, Trees, Rose Bushes, Flowering Shrubs, Nut Trees, and many other items. As our stock of this line is not sufficiently large enough to list we therefore offer same only to the local trade. Our Nurseries are $\frac{3}{4}$ of mile off from the White Horse Pike. A large attractive sign displaying a mammoth pink cactus Dahlia which is erected on the Pike at our road will give you our location.

COMPASS CHERRY-PLUM

This hardy northern fruit was originated in Minnesota and is a cross between the sand cherry of the plains and native wild plum. It will grow and thrive where extreme cold and semi-arid conditions prevail. It usually bears the second year from graft and often nursery trees are loaded down. The quality is much better than that of the sand cherry, having much of the astringency of this parent in hybridization. The flesh is more firm than that of most native plums, making it valuable for preserving. It is also prized by many to eat from the hand. Every home, especially in the North and West should have some of these trees. They will abundantly bear fruit that will be thoroughly appreciated. 5 ft. trees, each \$2.00.

CHERRY TREES

THORNLESS DEWBERRY

If the Dewberry were better known it would be one of the great favorites for the garden. In fruit the dewberry may be called an improved Blackberry. The berry being identical, in flavor. The fruit is much larger and more attractive. In lusciousness it cannot be superceded. We have grown many acres of the old fashioned Lucretia dewberry which variety is liberally supplied with thorns. As the dewberry is a trailing plant it requires staking. The vines cut to four foot and tied on a stake. Now with this wonderful thornless variety the detrimental thorns are no longer to be a matter of concern. Staking is rapid. The yield of this sort is immense. As a shipping berry none better. A profitable berry for the grower.

Lotus. This plant has become a very popular favorite. It can be grown in pools or tubs. The seed we offer will germinate the first season and leaves measuring four or five inches across may be obtained. It is not only a good seller but the pods can be used to good advantage. As this seed is large (about the size of robin's egg) and the shell very hard, it is necessary that the one end be cut or filled. Then soaked in warm water one hour. Plant in pots or tubs and place under four inches of water.

Against Ants

They Stand on Guard Like Sentinels

ANTROL containers offer you three distinct advantages over ordinary, old-time methods.

First, this modern system kills the queen ant and thus destroys the entire ant colony.

Second, Antrol is **safe** to use around children or pets.

And third, the Antrol method is in accordance with the methods adopted by the United States Government.

These three advantages of Antrol make it the most popular ant control on the market.

Antrol jars, therefore, protect your home from ants effectively, safely and permanently. They stand on guard like sentinels! Write today for 24-page booklet on Pest Control, written by Mr. A. D. Cardinet, famous entomologist, and inventor of the Antrol system.

Kills Garden Pests

Stops Their Damage!

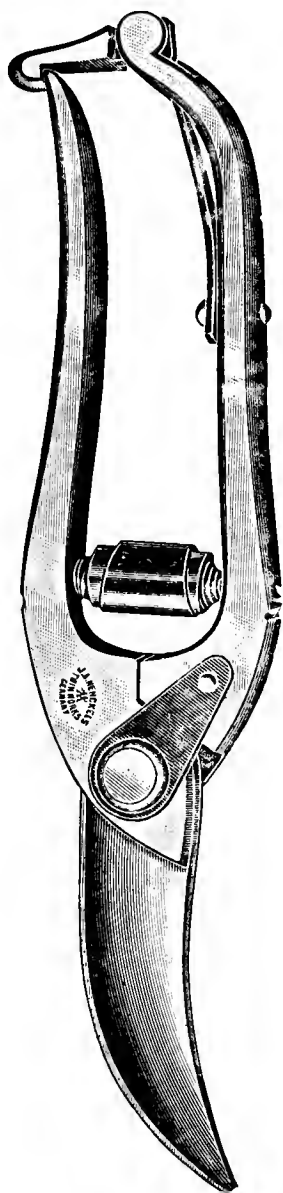

SNAROL is a scientifically prepared meal that you simply broadcast on the ground around the flowers and under the shrubs. The pest eats it as a food and is quickly exterminated. This modern pest control, unlike many others, is safe to use around pets or fowls.

Snarol is widely endorsed by leading nurseries, institutions and gardeners everywhere. It is easy to use and quick to effectively destroy the pest, which may be eating the tender shoots of your favorite flowers, vegetables or plants. Use Snarol in the garden and you will be free from the ravages of these pests. Write us today for a supply, or free 24-page booklet on Pest Control, written by Mr. A. D. SEMESAN
DUPONT
Makes Seeds Healthy

Mr. Clarence Prentice, owner of the Prentice Nursery, Kent, Washington, whose prize-winning gladiolus are shown here, writes, "Much more vigorous growth...better colored foliage...a wonderful crop of flowers...flower spikes larger...color more intense than in any crop we ever had." And what is more significant, these unusual flowers were grown from disease-infected corms that had been discarded but were recovered and treated with SEMESAN.

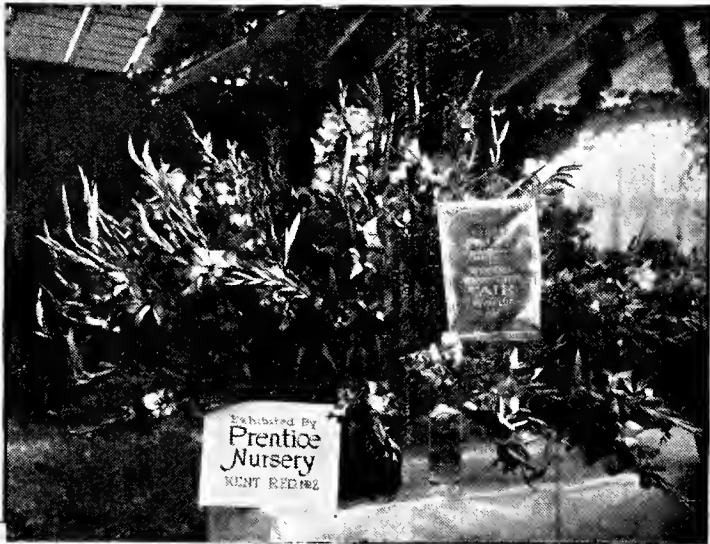

Mr. Prentice says further: "Besides taking first prize at the Puyallup, Washington State Fair, we topped the

Seattle market with these flowers getting as high as a dollar a dozen when other gladiolus were bringing twenty-five cents. SEMESAN produced flowers worth four times as much as those from untreated corms."

And Ralph Benjamin, of Calverton, N. Y., writes, "I treated a batch of 100% diseased gladiolus bulbs with SEMESAN last Spring. When these bulbs were dug and cleaned they showed no outward sign of disease. I treated several other batches with excellent results."

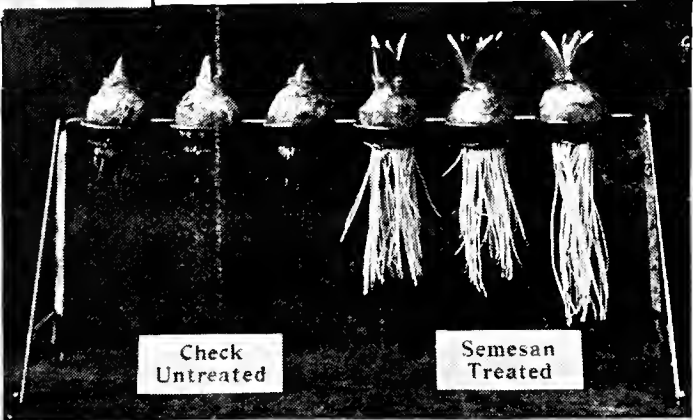

SEMESAN can be used in either dust or liquid form. It creates a disinfected zone around the seed, bulb or root. Effectively used on gladiolus, aster, dahlia, freesia and hundreds of other flowers. No special skill or equipment required. Try it and save money and blooms.

On the left are corms grown from SEMESAN-disinfected diseased seed pieces, while on the right are shown an equal number of corms grown from the same lot of untreated diseased stock. Notice the improvement caused by SEMESAN.

The three hyacinths on the right soaked in SEMESAN solution for two hours and placed in a sprouting jar. The three on the left were untreated but planted at the same time. Observe the remarkable growth stimulating effect of the SEMESAN treatment.

Once You Have Used it - You'll Use it Always

A GREENHOUSE GLASS CLEANER—Are you bothered with the thick green scum on the inside of your greenhouse glass? Have you failed to remove it? Well, to pass a good thing on, here is our experience. We have used many cleaners that will not remove the scum without great labor. In as much as TEX removed grease from the hands so readily without the slightest harm to the skin, we tried it on the greenhouse scum. Placed a little TEX in a bucket of warm water and applied it with a long handled brush. Like rubbing Aladdins Lamp, it was presto change. With no exertion what ever we found the glass clear as crystal. It also had the same good effect on the outside smoky glass.
